

# 4Heros's MILITARY METALS

## Clay Fundraising Chips

**4Heros** has partnered with a Veteran Owned Business to offer our customers *clay chips* that are manufactured here in the **United States**. These *highly durable, lightweight* and *cost effective chips* can be *customized with any logo, photo, graphic* or whatever else your mind can think of!

These are a *great alternative* to the more expensive metal challenge coin. Because of their price point, these chips can be *used in fundraising efforts*. Please see the table below for the **\$5.00 "Chip in" Program** which shows how much money you can make ("**Your Profit**" in yellow below) if you can come up with a customized design that people will buy for a \$5.00 donation. It is a great way to raise money & provide people with a *long-lasting attractive keepsake*.
